Children Under
Five at Risk

India ranks 94 in Global Hunger

According to the report, 14% of India's population is undernourished. It also showed the country recorded a 37.4% stunting rate among children under five and a wasting rate of 17.3%. The under-five mortality rate stood at 3.7%.

During **COVID-19** Full Moon Foundation's **Special Care**

We started food distribution after lockdown. We tried to help people as much as possible, provided dry food, mask, sanitizer, medicine, etc. Also, we donated cooked food for those who lost the job during the lockdown. And who came from another state for a job. During the 2nd wave, we had provided 800-1000 plates of meal each month.

Helped the Covid patients to get proper government facilities. Also, provide medicine, food, and sanitization of their house during that time.

We organized various campaigns to wear a mask and use sanitizer on the market area, road, etc.

Super Cyclone **Yash 2021** Full Moon Foundation's **Special Care**

During the pandemic, West Bengal faced "Super Cyclone Yash." The coastal area of West Bengal was very much affected (Sunderban, South 24th Pargana, North 24th Pargana). Most of the villages flooded with heavy rain. All people stayed in camp for almost 7-10 days.

That time we helped those people who had lost their house. We provided 2-weeks dry food (rice, dal, potato, muri, soybean, salt, oil, soap, mask, sanitizer, general medicine, etc.) to 209 families in Taki (North 24pgn). We also provided 16 waterproof tarpaulin sheets to the underprivileged to survive that situation.

About Full Moon Foundation

Works on various issues in our society, like child education, child dreams, hunger, skill training, self-reliance women, save nature, etc. We have registered as a Trust as per Indian Act. Reg No. IV-051300109/2021. Also, we have listed on NGO Darpan (www.ngodarpan.gov.in). We also register 80G under the Income Tax Act, 1961.

Full Moon Foundation's Key Working Areas

Child Nutrition

Under age five children are facing major health issues due to proper nutrition. We are trying to provide good protein food like Milk, Banana, Dal, Soyabils, etc.

Child Education

Child education is the most effective part to build a better society. We are trying to provide basic education and encourage them to join School.

Child Dream

A good dream can change your life. We help children to see a good dream for their future. Also, guide them regarding this, what need to be done & how to achieve it.

Skills Development

We are trying to provide few training programs for teenagers and women. They can learn new things, technology and use it in their career.

Women Health

Women's health is a big issue in rural areas. Our awareness program is to use sanitary pads and provide proper nutrition to pregnant women.

Self-reliance Women

If women can earn money, it will help family lifestyle, education, food habits, etc. Also, financially strong women can take a major role in society.
